

# TrustTone Email Encryption Appliance

## Plug-and-play, Easy to Use

## HIPAA, GLBA Compliant

## Policy-driven Email Encryption

### PERFECT FOR SMALL OR LARGE BUSINESSES

### BENEFITS

TrustTone provides email encryption products in various forms to satisfy the needs of a variety of users.

- **EMAIL ENCRYPTION APPLIANCE**

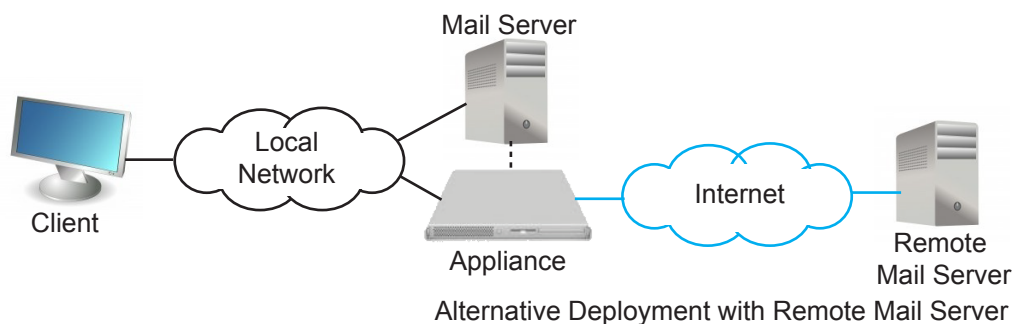

With a range of models to choose from an appliance is a perfect solution for a small office or a large organization.

- **EMAIL APPLICATION PLUG-IN**

The plug-in product is suitable for an individual user or a small business with a few users.

The Email encryption appliance is a great choice for your organization. It requires no effort from end users to start using email encryption and start complying to privacy regulations. Once your IT personnel sets up the appliance, users are able to use policy-driven encryption.

#### Deployment Diagram

#### Features

- ★ Identity Based Encryption over PKI (SmartPKI)
  - Reduces IT administration workload
  - Eliminates key and certificate management work
  - Manages keys and certificate lifecycle transparently
- ★ Compatible with SMTP/POP3/IMAP mail servers
- ★ Compatible with Microsoft Exchange versions 5 and 6
- ★ SMIME v3.1 compliant outgoing encrypted emails
- ★ Compatible with all email applications on Windows, Mac, Linux
- ★ Web-based administration

- 😊 Easy compliance with Privacy regulations HIPAA, GLBA, SB1386
- 😊 Global, company-wide policy enforcement
- 😊 No software to install on client desktops
- 😊 Less expensive per user for staff of 30 or more users
- 😊 Ownership and Control Private keys are in the control of the organization
- 😊 Dynamic Provisioning No need to provision identities; the system does that on demand.
